TONOPAH DAILY BONANZA

Today's Silver
Quotation, 53 3-8

VOL. X. NO. 26

TONOPAH, NEVADA, TUESDAY EVENING, MAY 23, 1911.

PRICE 10 CENTS.

AUTO PARTY IS STRANDED BY HIGH WATER SUNDAY

Prominent Mining Men Experience Very Unpleasant Accident While Enroute to Camp of Wonder.

Sunday, May 21, will be a day long remembered by Clyde A. Heller, J. W. Brock and S. D. Sinkler of Philadelphia and Superintendent Bradshaw of the Belmont Development Mining company. On the morning of this eventful day the party started out in Mr. Bradshaw's car for Wonder, about 150 miles overland. Everything went well until the party neared San Antonio, where they found that the waters of the Peavine had flooded the country. In attempting to cross a large stream the water killed the spark in the engine and brought them to a standstill.

After a futile attempt to get the machine running Mr. Bradshaw and Mr. Sinkler struck out on foot for Millers, a distance of thirty miles, arriving late at night, while Mr. Heller and Mr. Brock accepted the accommodations of Hotel Auto and prepared to spend the night.

Early Monday morning Mr. Brad-

shaw succeeded in getting the services of Mr. Kelly of the Tonopah foundry and his big machine. On reaching Millers Kelly picked up Messrs. Bradshaw and Sinkler and the rescue party headed up the Smoky valley. As the day wore on and the party did not arrive at Millers, Superintendent Jones of the Belmont mill, fearing that something had happened to machine number two, telephoned to Tonopah and had Frank Sellstrom's big 60-horse-power Thomas start out to find the two machines. On reaching Millers the machine was loaded up with refreshments and started up the valley, but had not gone far when they met the two autos returning under their own power. The party arrived at the Mizpah last evening, none the worse for their adventure. They will probably try the iron horse tomorrow, going to Wonder, thence to their homes in the east.

GRANT CRUMLEY QUIETLY MARRIED AT RENO

"Meet me at the train with a cab as I have excess baggage."

"J. GRANT CRUMLEY."

This is the contents of a telegram received this morning by Brother Nott from Grant Crumley, this morning, and when he divulged it the Bonanza at once smelt a rat and telegraphed the Reno Journal for information, receiving the following answer this afternoon:

Grant was quietly married last night to Miss L. L. Clow; affair was secret. Ceremony performed in

office of Judge W. D. Jones with Justice of Peace Lee Davis officiating. Couple left on this morning's train for Tonopah.

In accordance with the request, Nott was at the depot with a dray, an express wagon and a cab and a few friends, who had the tip, were at the depot with all the rice and old shoes that they could collect together in short notice. The Bonanza wishes the newly married couple happiness and prosperity through life's journey.

FORTUNE TELLER TRIO IS A GREAT DRAWING CARD

STAGE SETTING MAGNIFICENT.
CHANGE OF PROGRAM FOR
THIS EVENING.

The Idora had its usual large houses last night, as the show on the boards is one of the very best ever witnessed in the city of Tonopah. The Fortune Teller Trio is almost a light opera company in itself. Their rendition of "Trum-erie" on the violin and harp was about as pretty and pleasing a bit of music as has ever been heard in Tonopah, and the electric effects in camp scenery with the stars twinkling through the trees is a beautiful sight.

Vivian, the comedy acrobat, certainly made a great hit with the large audiences. The act is one continuous scream, and not a dull moment from start to finish. Two of the pictures shown tonight will be entitled: "A Close Call," Pathe American drama, and "In Blossom Time," a Kalem masterpiece. An entire change of program will be offered.

Manager Spencer has been making quite a few changes at the Idora theater and has more under way. Five dressing rooms are now completed for the convenience of the vaudeville teams.

Curtains will be strung across the front of the house and one side will be used as an exit and the other for those entering the theater. At the rear of the Idora two exits have been made, and Mineral street has been graded and cleaned so that those wishing can get out that way. Mr. Pollard, a scenic painter from Reno, is due to arrive today and will paint an entire new set of stage scenery and a new advertising curtain.

A telegram was received from Professor Voss today, in which he expressed his pleasure at once more having the opportunity of teaming with Allen Tatro.

The Daily Bonanza reaches the people.

ROTHOLTZ BROS. WILL MOVE INTO NEW QUARTERS

NEW FIXTURES WILL BE INSTALLED AND STORE ARRANGED IN DEPARTMENTS.

Rotholtz Brothers' stationery store will move to new quarters about June 1 and will occupy the east half of the old Tonopah Club room, next to the new quarters of the Postal Telegraph and Telephone company. New fixtures are being ordered, and when they are placed in their proper positions the Rotholtz Brothers will have one of the most attractive stores in the state of Nevada. There will be a department for candies, one for cigarettes, cigars and tobaccos and another for stationery.

The cigar department will be a revelation, as it will be on the lines of the San Francisco stands, with a 12-foot case and glass cabinets. The firm has always been noted for first class goods and a large assortment.

TO THE BARN WITH THE BIG MACHINE

Nobody will dispute Charley Wittenberg's ability to handle from one to twenty horses, but when it comes to driving an auto he will have to begin at the bottom and work his way up.

Charley has purchased a six-cylinder 45-horse-power Pierce-Arrow and as a chauffeur, was getting along swimmingly until he kicked the speed in too suddenly, and now the big chug is in the hospital having new gears put in.

FREIGHTING CONTINUES TO ROUND MOUNTAIN

The Wittenberg Transfer company started two wagon loads of cement and lumber to Round Mountain this morning. This material is consigned to the Round Mountain Mining company and will be used in constructing the addition to the mill, which is expected to be completed in about two months.

WORK TO BE RESUMED AT ELLENDALE

KENDALL AND DOUGLASS TO START WORK ON PROPERTY NEAR ORIGINAL STRIKE.

Tom Kendall and "Billy" Douglass will shortly start work on the property known as the Ed Clifford claims, near Ellendale, and would now be at work had it not been for the unfortunate accident that befell Mr. Douglass at Goldfield and confined him to his bed.

Mr. Kendall has great faith in the Ellendale country and was one of the active operators in that section two years ago when the rush to Ellendale was on.

The property lays well up on the mountain that the main strike was made on and has yielded some good assays. Sheriff Malley may also resume work on his former lease, and will make a trip out there as soon as he can spare the time.

GEORGES CANYON IS VISITED BY A VIENNA BROKER

Sunday "Bob" Govan, R. C. Moore and John C. Hall, the Vienna broker, visited George's Canyon in Gilbert's automobile, making the 50 miles and return in the same day.

Mr. Hall is looking for mining properties to handle on the continent and is very much impressed with what he saw at the canyon, and believes that it is destined to make Nye county and the state of Nevada famous as a gold producer. The party visited the property of Stimler and Marsh, where they found the little two-stamp mill busy grinding out the yellow metal. Mr. Hall also secured a handsome specimen of gold ore from the Clifford mine at Ellendale, which he prizes very highly. The specimen is covered with gold.

OUR EXPORTS TO CHINA AND JAPAN WERE \$6,279,021

TOTAL VALUE OF MERCHANDISE SENT TO ASIA FOR NINE MONTHS IS \$65,500,000.

WASHINGTON, May 23.—A marked improvement in the export trade to China and Japan is observed in the figures of the bureau of statistics, department of commerce and labor. Exports to Asia had, up to the beginning of the current year, been steadily decreasing, the total sales of the United States to that section of the world having dropped from \$128,500,000 in the fiscal year 1905 to \$71,750,000 in 1909 and \$60,750,000 in 1910.

For the present fiscal year the nine months' figures at hand already show a total export of \$62,500,000, indicating that a continuation of the gain shown in April will bring the year's total up to fully \$90,000,000, as compared with \$60,750,000 in 1910 and \$71,750,000 in 1909.

To China our exports during the month of March, 1911, were valued at \$2,105,767, a gain of 57 per cent over the figures for March a year earlier, and for the nine months ending with March, \$13,000,000, compared with \$11,000,000 in corresponding period of the preceding year.

Should the closing quarter of the year maintain the rate of exportation shown by March, the full 12 months' total would approximate \$20,000,000, as against \$17,000,000 in 1910, a little less than \$20,000,000 in 1909 and \$23,000,000 in 1905.

Wanted—Performers for amateur night at the Idora; substantial prizes offered. See Manager F. B. Spencer.

SHERIFF'S OFFICE BUSY CLEANING UP COURT YARD

BERTILLON SYSTEM DOWN TO A FINE POINT—SIX GUESTS AT THE HOTEL.

The sheriff's office has been busy this month cleaning up the yard and making improvements around the court house, using the guests of Hotel Malley to accomplish this end. A road is being constructed to the county barn, excavating is going on to the north of the court house and trees are being set out. Sheriff Malley has been breaking solid rock by the use of quick lime and finds it much safer than powder where buildings are in close proximity.

The sheriff's office has also become proficient in the Bertillon system and is ready to take measurements and finger prints of all the candidates who break into the jail. At present there are six guests at the hotel, including one Gibson.

ELLENDALE MINE PRODUCES \$45,000 IN YEAR'S TIME

About thirty miles from Tonopah and in Nye county is a mine that the world hears little about. The estate belongs to the Cliffords and is at Ellendale, the scene of a big rush two years ago.

It is a poor man's mine in every sense of the word. During the past year only one man has been at work steady, and it is claimed by those in close touch with the property that it has produced \$45,000 in that time.

CHINESE BANKER DRAGGED TO DEATH IN MEXICAN TOWN

WEALTHY MONGOLIAN PULLED AROUND PLAZA UNTIL BODY MASS OF BROKEN BONES.

LAREDO, Tex., May 23.—At the end of a rope which had been tied around his neck, Dr. J. W. Lim, a Chinese banker, was dragged around the plaza in Torreon, Mexico, until his body was a mass of broken bones and bleeding wounds, according to reports reaching here yesterday.

From the same source of information details of a three-days' battle at Torreon between revolutionists and federals were received. The battle is said to have occurred on May 13, 14 and 15, resulting in a rebel victory.

Dr. Lim was one of the wealthiest Chinese in Northern Mexico and was at the head of a banking institution controlled by Chinese capitalists. After dragging Lim around the plaza until life was extinct, it is reported the rebels shot him several times. He died within a few minutes.

Another report said one of the Sternau brothers, hotel proprietors in Torreon, was hanged by the rebels after several Spaniards had fired at the insurgents from doors and windows in the hotel. This cannot be verified.

The reports of the Torreon incidents were brought by an American locomotive engineer, who escaped on a horse and later secured a handcar on which he reached Jalisco, Coahuila, and by a conductor who managed to get away and proceed to San Luis Potosi after four days' travel. Friends of the railroad man arrived in Laredo yesterday and said they heard the reports from two sources and that they tallied in every detail. Wire and railroad communication with Tor-

MANHATTAN IS SHOWING A STEADY IMPROVEMENT

Future of the Great Gold Camp to the North of Tonopah Never Looked Better Than at Present.

Charles S. McCarthy, recently resigned as superintendent of the War Eagle mill at Manhattan, is spending a few days in Tonopah before returning to the northern camp to engage in certain mining enterprises that he has contemplated for some time. In speaking of Manhattan, Mr. McCarthy gives an interesting account of the general condition of the camp.

The Dexter properties are showing a steady improvement under the War Eagle leases and about thirty-five men are at work. The Big Four has about the same number of men at work as the Dexter.

The new strike on the Big Four is about 700 feet northwest of the Poak, Steen and Chapman lease and parallels the ledge in that lease. The lease belongs to Tarrish and Lindsay and at a depth of 30 feet the bottom of the shaft is in \$40 ore. Fifty tons of this grade of ore are on the dump.

The lease on the White Caps has

milled about 400 tons of \$40 ore and sent out a shipment of two carloads of ore that will average in the neighborhood of \$90 per ton.

On the Earl property the Bath brothers' lease is producing from five to six tons of ore daily that will run about \$50. This production is accomplished with only five men at work. Aside from the well-known leases there are about fifteen leasers at work, some have ore and others are looking for it.

"Dry Wash" Wilson has about twenty men at work in his placers and is cleaning up about \$3000 monthly in profits. There are about 30 to 40 men operating placers in the gulch besides Mr. Wilson and most of them are making better than wages.

At East Manhattan several rich strikes have been reported, but to date not enough work has been done to prove the extent of the discoveries.

SHOOTING SCRAPE OVER CLAIMS THIS MORNING

This morning about 10 o'clock one Edward Achimovich arrived at the police station in an excited state and informed that he had been shot at by a party about four miles from Tonopah. Securing a team and a warrant for the arrest of John Doe, on a charge of assault with intent to kill, Chief Smith and Deputy Walker started for the scene, accompanied by the Italian and returned with one Durner and Martin Herf.

The trouble is over ground lying

beyond the Halifax. A location is claimed by George Keys, Martin Herf and Durner. Achimovich jumped the ground, alleging the work had not been done.

This morning the Italian was at work when Herf and Durner appear on the scene. Achimovich alleges that Durner shot at him, exhibiting a bullet hole through the sleeve and one through his pants leg as proof. Durner does not deny shooting, but claims the Italian reached for a gun and that he fired in the air.

EAGLES TO GIVE DANCE ON NEXT FRIDAY NIGHT

BIRDS WILL ENTERTAIN AS OF OLD—GOOD MUSIC AND REFRESHMENTS.

Next Friday night the Tonopah Aeria of Eagles will give a dance and serve refreshments at Elks' hall. Time was when the Aeria was the most popular order in the town and their entertainments were looked forward to with pleasure, but the order has been a little lax of late and this dance is to be given to get the birds together and get in line for the most active series of entertainments ever undertaken by the lodge.

AIR COMPRESSOR OF MOGUL CO. IS SOLD BY SHERIFF

The air compressor plant of the Mogul Mining company in the Ray district, was sold by the sheriff last week to satisfy a judgment obtained by the Nye County Mercantile company.

recon has been cut off for more than two weeks.

The railroad men leaving Torreon said at least two hundred federals were killed in the battle, but did not estimate the rebel losses. It is said 17 Chinese were killed.

It appears that the wrath of the revolutionists was kindled against the Chinese because the latter fired upon them when the rebels approached large true gardens where the Chinese were at work. Statements that the Chinese hotel, the railroad station and other buildings were burned were made, and it was said the interior of the Salvadore hotel, under the Casino, was wrecked by rebels. So far as is known, no Americans were injured, though it is reported a man named McCarthy died from fright.

On account of cutting of telegraph wires, it has been impossible to verify these reports.

NOVELTY TRIO MAKES A BIG HIT AT BUTLER

MUSICAL ENTERTAINERS RECEIVE REPEATED APPLAUSE AND CHEERS.

If there is any doubt of the success of the Novelty Trio making good, ask anyone of the large number of spectators that crowded the Butler theater last night. For this popular place of amusement this clever trio is the best attraction that ever appeared in the stage in the history of this playhouse. Their voices are good, blending nicely together, making it a pleasure to hear them sing. Their playing on the mandolins and banjos are as good as has been heard in this neck of the woods. Mr. DeHarfort's number on the Mexican solitaire was, beyond question of a doubt, the hit of the evening. All in all, it is a swell act, and they had to respond to encore after encore before the tremendous audiences had their fill. They will be heard in an entire change of program tonight. The pictures are as follows: "The Crusade of the Templars," "Edna's Imprisonment" and "When the Dead Return."

MOTHERS' MEETING.

There is scheduled to be held a mothers' meeting in the Presbyterian church on Wednesday afternoon, May 24, at 2:30 p. m. There will be a short program, followed by the serving of refreshments. A cordial invitation is extended to all ladies to attend.

ENTERTAINED AT BRIDGE.

Last Saturday afternoon Mrs. J. B. Trelogan entertained a few friends at bridge whist.

Five people on the Idora stage during week ending May 20th.
